Target

Getting an interesting creative work in the field of IT with the ability of professional and career growth.

Education

2002-2006 Mari State Technical University (http://eng.volgatech.net/), specialty "Software of computers and automated systems", with honors.

2006-2009 - post-graduate study. Ph.D. Theme: «Analysis and prediction of composite stochastic signals based on methods of separation boundaries of implementation of dynamic systems».

Experience

2003 - development of control systems dating-sites (served part of the project). PHP-MySQL.

2004 - 2006 - Web-developer in "Pilot Group Ltd." (http://pilotgroup.net).

My own projects:
        elitedomains.org - service broker of domain names. Admin and user modules. Integrated Payment Systems (E-gold, MoneyBookers, have the flexibility to connect any other payment systems). Multi-Language interface. PHP / MySQL / AJAX / JavaScript.
        keyworddirectories.net - child service of EliteDomains.org. Keyword-generation system directories, integration of payment systems, custom module, integrated system for collecting statistics.
These projects not work now.

2006 - 2008 - Web developer in "IMA Foros InfoTrevl» www.foros.ru. Solutions in the field of tourism (Russia), site development. Technology: JavaScript / AJAX / Perl / MySQL (with replication) / Apache / FreeBSD. Web-development and server administration.

2008-2010 - Blubox.com (Great Britain) - online photo storage. Zend Framework/Amazon S3/MySQL/SVN/Redmine .

2010-2012 - Filesonic.com (SharingMatrix.com) (Techboom Inc. Montreal, Canada.) – storage service. The site was among the top 10 file-sharing sites on the Internet, with a quarter billion page views a month. Senior developer (at the beginning, because I was single developer in project), then lead web-developer.
PHP/MySQL/Apache/Nginx/Linux/FreeBSD/CentOS/SVN/Zend Framework/memcached/JavaScript/Jira. Backend and frontend developer.

2012:
http://mari12.ru – my own project - real estate directory of Mari El. PHP/MySQL.
http://vbiznese.net - a universal platform of products and services.
PHP/MySQL/Sphinx/Linux/jQuery – single developer.
http://clubtravel.php – travel club. PHP/MySQL/Linux/ jQuery/Git. Project manager, all employers are remote (designer, maker-up, web-developer).

2012-present:

Startup about order tickets for different city events in cinemas, theatres and so on.
My position: Senior PHP-developer. Symfony 1.4|2.2 / Doctrine 1.4|2 / MySQL Percona/ Sphinx /Linux/SVN/jQuery.

Also I control of small group php-developers (7 peoples - remotely) for couple projects (Zend Framework 1.x / jQuery /MySQL/Oracle/MS SQL/Git)

I give lectures in Volga State University of Technology (http://eng.volgatech.net/) about web-development and web-designing (once in week).

Additional information

Marital status: Married. Also know C# (but it is not my specialization). Hobbies: guitar, sports, IT technology, work.
